

SELF-CARE REFLECTION

Date:

WITH DR. DANICA HARRIS

Directions: At the end of a long day, sit down, take a breathe and look at the questions below. Take a couple of minutes to think and write down your answers to get a better insight on your version of self-care.

What's one thing I am willing to do differently to take better care of myself?

What is a boundary I need to set and how can I communicate that to others?

What do I stand to gain by engaging in more self-care? What am I afraid I will lose if I do?
